As an industry leader KIPPERTOOL® - Kipper Tool Company (KTC) represents a proud history in the configuration, assemblage, management and sustainment of tool systems, that increase productivity, efficiency and standardization. We understand that the successful accomplishment of every mission is linked to one or more sets, kits, or outfits (SKOs) containing the soldier's tools of the trade. We are focused on finding and providing the tool, SKO, or special equipment needs for each customer. We take great pride in ensuring the right fit, form and function of every tool or set. Thus saving the customer from acquisition mistakes that waste funds on the wrong equipment and result in costly order modification.

KipperTool® kits are ready to take on the demanding conditions facing our military today and in the future and are combat

proven to operate around the world in extreme environments with an Army approved enclosure capable of exceeding temperatures from -25° F to 135° F. The Kipper Tool Company Tool Sets have passed every drop, crush and rain tests, with field proven reliability.

Kipper Tool Company developed the tool sets to meet those requirements and obtained the NSNs. For ease of acquisition, KTC provides the modernized tool sets through GSA. They are readily available to units at a time when the pace of deployment has greatly accelerated. Time and again these kits have proven that the utilization of their state-of-the-art tools speeds mission accomplishment.

For more information call (800)-295-9595 or visit us on the web at www.kippertool.com

Vendor Managed Tool Systems are engineered and tested, modularized, standardized, cross-combatable, life cycle managed and backed by a single world-wide warranty program. Each VMTS is supported by a Replenishment Kit and sustainment network to remove obsolete equipment and improve safety and maintainability. KipperTool uses the 5-S & Kaizen methodology in the construction of all our kits!

SATS REPLACEMENT IN ORDER BY PART NUMBER

P/N: ALD 1257P
NSN: 5120-01-644-4340

Extractor #5 & #6 (3mm) for Alden 7017P 7pc Extractor Kit
